Xero Training

Need Some Additional Training On Xero?

We understand that when you embrace a new way of working you may need some additional help to get up and running efficiently. Although free help is offered within their software, we realise that sometimes you need to take advantage of some additional Xero training to get the best out of their system.

That's why we offer tailor made training programs for you and your staff, either online or at your premises. Our most popular packages are listed below with details of what is included in each session.

Full Day Onsite

Full Day Onsite

from £1,350 + VAT

This is our most comprehensive training package, and by the end of the day attendees will have an incredibly in depth knowledge of how to use Xero and get the best out of it.

The day begins at 9:30 am and concludes at 4:30 pm and takes place at your business premises. If you do not have suitable training facilities then a local venue can be hired instead at an additional cost. You are free to hire this yourself or we can make the arrangements on your behalf and bill this to you as a disbursement.

The exact content of the day can be tailored to your exact requirements.

If you would like to see a typical schedule of the topics we can cover then please contact us.

This course is designed for those who just need a basic overview of Xero, or need to update their skills and learn advanced techniques.

We can tailor this half day course to include either basic training or advanced techniques. Many people choose to use the basic course as an introduction to Xero to get started on the system and then book an advanced half day course a month or two later to hone their skills.

This has the added advantage of easing your cashflow – especially if you're new in business.

The day commences at 9:30 am and concludes at 12:30 pm.

This option allows you to be trained remotely so that you can learn at your own pace.

Each session lasts 30 mins and we can cover any topic that you need help with.

You can also purchase these sessions in bulk at a reduced cost.

This option is ideal if you have a good understanding of Xero and just need additional training on some of the more advanced aspects of the system.

It's also 100% secure, as you are looking at our computer screen, so we don't need to access your machine.
